PROFESSIONAL SUMMARY

Full Stack Developer experienced in building and deploying modern web applications using **React**, **Next.js**, **Node.js**, **FastAPI**, and **MongoDB**. Proficient in **REST API** development, **authentication**, **database** design, **Docker** based **deployment**, and **cloud platforms** such as **Vercel** and **Hugging Face**. **Passionate** about creating **reliable** software **solutions** and seeking a **junior software engineering** role to contribute to collaborative engineering teams while expanding technical expertise.

EDUCATION

Punjab University College of Information and Technology (PUCIT)	Lahore, Pakistan
Bachelor of Science in Software Engineering	CGPA:3.3/4.0 2022-2026

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Shadcn UI
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication, ASP.NET
Databases: MongoDB, Supabase, SQL Server
AI / ML: LLM Integration (**Groq**, **Gemini**), Retrieval-Augmented Generation (**RAG**), Model **Deployment & Testing**
DevOps & Tools: Github, CI/CD, Hugging Face, Docker, Vercel, Postman, n8n

EXPERIENCE

Web Development Intern <i>Next.js, Supabase, MongoDB, Groq AI, n8n, ShadcnUI</i>	Jul 2025-Aug 2025
---	--------------------------

Nexium

- Built an **AI-powered Recipe Generator** using Next.js with authentication (Magic Link) and MongoDB for storage
- Integrated Groq AI via n8n workflows and optimized prompts to improve response quality | **Watch on Loom**
- Developed an email automation system for sending and responding to emails.

Teaching Assistant – Machine Learning	Sep 2025-Jan 2026
--	--------------------------

- Created and graded quizzes and assignments, providing constructive feedback
- Conducted final project viva sessions on time series data classification (binary and multi-class)

PROJECTS

ShopMate AI — **RAG-Based Intelligent Ecommerce Platform** | *React (Vite), Node.js, Express, MongoDB, Groq LLM*

- Built a full-stack ecommerce platform with **JWT auth** for secure, **user-specific cart** and **order** management
- Powered intelligent product discovery via a **RAG chatbot** with LLM tool-calling for conversational cart operations (**add, remove, clear**)
- Designed **scalable** REST APIs using **MVC** architecture with **MongoDB** text **indexing** for fast, efficient product search | **Walkthrough** | **Frontend** | **Backend**

AI Medical Scribe (FYP) | *React, FastAPI, WebSockets, PostgreSQL, Redis, Celery, Whisper, Pyannote, Google Gemini*

- Built a real-time **AI system** that converts **doctor–patient conversations** into structured **SOAP** clinical notes
- Implemented WebSockets for real-time updates and job queues for efficient asynchronous task execution
- Integrated speech-to-text, diarization, and LLMs for **live transcription** and **automated medical documentation**
- Walkthrough** | **Documentation**

GitAnalytica — **AI-Powered GitHub Intelligence Platform** | *FastAPI, Groq LLM, React, Github API*

- AI-powered GitHub intelligence platform for structured developer evaluation and hiring decisions
- Automated** recruiter-style **summaries** and **PR review** recommendations (**approve/deny** changes) using Groq
- Modular FastAPI backend with async **GitHub API** pipelines for **real-time analysis** and **developer comparison**
- Frontend** | **Backend**

ACTIVITIES & CERTIFICATIONS

- Prompt Engineering** – IBM(CognitiveClass.ai)
- Google AI Essentials** – Coursera
- UI/UX Finalist** – PF-PUCon'25
- CodeRush** – ITU GDSC: Competed in algorithmic problem-solving competition
