PROFESSIONAL SUMMARY

Full-Stack Developer focused on building and deploying production-ready web applications with AI-driven features. Experienced in authentication, REST APIs, and real-time applications, with deployment across Vercel, Docker, and Hugging Face. Comfortable working across backend systems, AI integration, and scalable application design. Actively seeking internship or junior full-stack roles in product-focused or startup environments

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Shadcn UI

Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases: MongoDB, Supabase, SQL Server

Tools & Deployment: Github, Docker, Hugging Face, Vercel, Postman

EDUCATION

Punjab University College of Information and Technology (PUCIT)

Bachelor of Science in Software Engineering

Lahore, Pakistan

2022-2026

EXPERIENCE

Web Development Intern

Jul 2025-Aug 2025

Nexium

- Built an AI-powered **Recipe Generator** using Next.js with authentication (Magic Link) and MongoDB storage
- Integrated Groq AI via n8n workflows and optimized prompts to improve response quality
- Developed and deployed full-stack features with focus on performance and usability
- Developed a **Blog Summarizer** & Urdu translator web app using Next.js and Supabase
- Implemented article scraping, summarization, and translation with responsive UI (Tailwind, Shadcn UI)
- Deployed application on Vercel with smooth animations and user-friendly interface

Teaching Assistant – Machine Learning

Sep 2025-Jan 2026

- Created and graded quizzes and assignments, providing constructive feedback
- Conducted final project viva sessions on time series data classification (binary and multi-class)

PROJECTS

ShopMate AI — RAG-Based Intelligent Ecommerce Platform **🚀** | *React (Vite), Node.js, Express, MongoDB, Groq LLM*

- Built a full-stack ecommerce platform with **JWT auth** for secure, **user-specific cart** and **order** management
- Powered intelligent product discovery via a **RAG chatbot** with LLM tool-calling for conversational cart operations (**add, remove, clear**)
- Designed **scalable** REST APIs using **MVC** architecture with **MongoDB** text **indexing** for fast, efficient product search

GitAnalytica | *FastAPI, Groq API, React, Github API*

- AI-powered GitHub intelligence platform for structured developer evaluation and hiring decisions
- Automated recruiter-style **summaries** and **PR review** recommendations (approve/deny changes) using Groq
- Modular FastAPI backend with async **GitHub API** pipelines for **real-time analysis** and **developer comparison**

AI Medical Scribe (FYP) **🚀** | *React, FastAPI, WebSockets*

- Developed a real-time transcription and SOAP notes system using AI
- Designed scalable backend with asynchronous processing and WebSockets
- Built responsive UI with real-time updates and authentication
- Developed REST API for Urdu Speech to text using fine tuned whisper model (**Urdu Whisper ASR API** **🚀**)

ACTIVITIES & CERTIFICATIONS

- Prompt Engineering** – IBM Skills Network (CognitiveClass.ai)
- UI/UX Finalist** – PF-PUCon'25
- Esports Coordinator** – PF-PUCon'25: Managed event coordination and logistics for esports activities.
