PROFESSIONAL SUMMARY

Full-Stack Web Developer with experience building and deploying scalable web applications and integrating **AI-powered features** into production systems. Strong backend expertise in **RESTful APIs, authentication, and database-driven architectures**, with a focus on performance and maintainability. Experienced in developing responsive user interfaces and delivering end-to-end web solutions. Actively seeking internship or junior web developer roles in product-focused or startup environments.

TECHNICAL SKILLS

Core: JavaScript, React.js, Next.js, Node.js, Express.js
Frontend: Tailwind CSS, Bootstrap, Shadcn UI
Backend & APIs: REST APIs, JWT Authentication, FastAPI
Databases: MongoDB, Supabase, SQL Server
Tools: Git, GitHub, Docker, Vercel, Postman
Familiar: Python, C++, Java, C#

EDUCATION

Punjab University College of Information and Technology (PUCIT)	Lahore, Pakistan
Bachelor of Science in Software Engineering	2022-2026

EXPERIENCE

Web Development Intern	June 2025-Aug 2025
Nexium	

- Built an AI-powered recipe generator using Next.js with authentication (Magic Link) and MongoDB storage
- Integrated Groq AI via n8n workflows and optimized prompts to improve response quality
- Developed and deployed full-stack features with focus on performance and usability
- Developed a blog summarizer & Urdu translator web app using Next.js and Supabase
- Implemented article scraping, summarization, and translation with responsive UI (Tailwind, Shadcn UI)
- Deployed application on Vercel with smooth animations and user-friendly interface

Teaching Assistant – Machine Learning Sep 2025-Jan 2025

- Assisted in grading and project evaluations (time series classification)

PROJECTS

SmartShop | React (Vite), Node.js, Express, MongoDB, Tailwind CSS

- Built a full-stack e-commerce platform with JWT authentication, supporting user-specific cart and order management
- Designed RESTful APIs using MVC architecture and managed application state using Context API
- Developed a **rule-based chatbot** to streamline product search and **cart actions**, improving user experience
- Optimized database queries using **indexing**, significantly reducing **search latency** and improving read performance

AI Medical Scribe (FYP) | React, FastAPI, WebSockets

- Developed a real-time transcription and SOAP notes system using AI
- Designed scalable backend with asynchronous processing and WebSockets
- Built responsive UI with real-time updates and authentication

Urdu Whisper ASR API

- Developed REST API for Urdu speech-to-text using fine-tuned Whisper model
- Enabled real-time transcription through scalable API endpoints

ACHIEVEMENTS & ACTIVITIES

- Esports Coordinator – PF-PUCon'25:** Managed event coordination and logistics for esports activities.
- UI/UX Finalist – PF-PUCon'25**
- CodeRush – ITU GDSC:** Competed in algorithmic problem-solving competition
